What is SARE?

Since 1988, the Sustainable Agriculture Research & Education (SARE) program has been the go-to USDA grants and outreach program for farmers, ranchers, researchers and educators who want to develop innovations that improve farm profitability, protect water and land, and revitalize communities. To date, SARE has awarded over $389 million to more than 8,542 initiatives.

SARE is grassroots with far-reaching impact

Four regional councils of expert practitioners set priorities and make grants in every state and island protectorate.

SARE communicates results

SARE shares project results by requiring grantees to conduct outreach and grower engagement; and by maintaining an online library of practical publications, grantees-produced information products and other educational materials.

SARE: Advancing the Frontier of Sustainable Agriculture in...

Hawaii

Project Highlight: Pest Reduction on Agricultural Lands due to Hawaiian Short-eared Owls

If you can encourage a threatened native species, help control non-native pests, benefit the state’s farmers, and preserve a culturally important icon, you’ve hit an ecological grand slam. That’s exactly what the University of Hawaii’s Melissa Price is trying to do with the islands’ pueo owls. The native pueo have an important place in the island’s spiritual life and are listed as threatened on Oahu. Exact numbers are hard to come by. Getting a better idea of the population and distribution of pueo was one of the objectives of Price’s project. In fact, the owls are so hard to count, some people told Price her team would be lucky to find any pueo at all. However, based on sightings and surveys, Price has documented the birds nest in wetlands, at higher elevations, and in native forests under ferns.

Hawaii also has barn owls, which were introduced to the island ecosystem in the 1950s, but barn owls prey on both native and non-native species. Price’s research documented the seasonal use of agricultural lands by pueo and developed recommendations for producers on how to conserve or create pueo habitat to get their pest-management benefits. Due to increased knowledge about pueo, producers are now helping to achieve a “win-win-win” for the native Pueo, for Hawai‘i conservation, and for economic benefits to agriculture.

For more information on these projects, see sare.org/projects, and search for project number OW18-017.

SARE in Hawaii

western.sare.org/sare-in-your-state/hawaii

$7,966,301 in total funding

125 grant projects

(since 1988)

For a complete list of grant projects state by state, go to www.sare.org/state-summaries
SARE Grants in Hawaii

Total awards: **125 grants**
- 31 Research and Education
- 19 Professional Development Program
- 51 Farmer/Rancher
- 11 Graduate Student
- 13 On Farm Research/Partnership

Total funding: **$7,966,301**
- **$4,819,263** Research and Education
- **$1,402,030** Professional Development Program
- **$775,568** Farmer/Rancher
- **$686,633** Graduate Student
- **$282,807** On Farm Research/Partnership

Find a complete list of projects on page 3.

SARE's Impact

- **53 percent** of producers report using a new production technique after reading a SARE publication.
- **79 percent** of producers said they improved soil quality through their SARE project.
- **64 percent** of producers said their SARE project helped them achieve higher sales.

Learn about local impacts at: western.sare.org/sare-in-your-state/hawaii

Contact Your SARE State Coordinator

SARE sustainable ag coordinators run state-level educational programs for Extension and other ag professionals, and many help grant applicants and recipients with planning and outreach. Visit western.sare.org/state-pages/hawaii to learn more.

For detailed information on SARE projects, go to www.SARE.org

SARE is funded by the USDA’s National Institute of Food and Agriculture (NIFA).

This report includes summaries of competitive grant programs only. Some competitive grant programs that are no longer offered may be included or excluded from the totals in this report depending on the grant program and SARE region.
Hawaii has been awarded $7,966,301 grants to support 124 projects, including but not limited to, 30 research and/or education projects, 19 professional development projects and 51 producer-led projects. Hawaii has also received additional SARE support through multi-state projects.

Dr. Philip Waisen  
University of California Agriculture and Natural Resources Division |
| GW18-014     | Conditioning Sheep to Avoid Koa Foilage: An opportunity for productive silvopasteres in Hawaii. | $24,920      | Rebecca Ryals  
University of Hawaii - Manoa  
Nicholas Krueger  
University of Hawaii - Manoa |
| GW18-104     | Conservation Biological Control of Coffee Berry Borer by Applying Nitrogen Fixing Tree Mulch to Enhance Indigenous Entomopathogenic Nematodes | $24,948      | Dr. Brent Sipes  
University of Hawaii  
Dr. Brent Sipes  
University of Hawaii |
| GW18-187     | Quantifying the Environmental Impact of Doubling Hawaii’s Local Food Supply | $21,119      | Dr. Kimberly Carlson  
University of Hawaii  
Tanya Torres  
University of Hawaii |
**GW14-007**  Evaluating the Potential of Oyster Mushroom Compost Waste for Plant-Parasitic Nematode Management  

$24,920  
Dr. Koon-Hui Wang  
University of Hawaii  
Shelby Ching  
University of Hawaii at Manoa

### ON FARM RESEARCH/PARTNERSHIP GRANTS

<table>
<thead>
<tr>
<th>Project #</th>
<th>Project Title</th>
<th>SARE Support</th>
<th>Project Leaders</th>
</tr>
</thead>
</table>
| OW23-378   | Estimating the Application Rate of Locally Produced Liquid Organic Fertilizer to Meet Crop N Requirement | $74,547      | Dr. Amjad Ahmad  
University of Hawaii at Manoa  
Joshua Silva  
University of Hawaii at Manoa, College of Tropical Agriculture  
Jensen Uyeda  
University of Hawaii |
| OW22-374   | Mitigation of Breadfruit Orchard Establishment Challenges in Hawai'i: Assessing Best Practices to Address Weed Management and Ungulate Control | $74,998      | Dana Shapiro  
Hawaii Ulu Cooperative  
Kyle Jackson  
Hawai'i 'Ulu Cooperative |
| OW20-354   | Healthy Soils Hawai'i: Building Better Soil on Agricultural Lands through Soil Health Planning | $49,557      | Dave Elliott  
Oahu RC&D  
Hannah Hubanks  
Oahu RC&D |
| OW19-344   | Breadfruit Disease Identification and Varietal Resistance in Hawai'i          | $49,971      | Dr. Noa Lincoln  
University of Hawaii at Manoa  
Eli Isele  
University of Hawaii  
Dana Shapiro  
Hawaii Ulu Producers Cooperative  
Janice Uchida  
Dept. of Plant Pathology, University of Hawaii |
| OW18-017   | Pest reduction on agricultural lands due to Hawaiian short-eared owls        | $49,755      | Dr. Melissa Price  
University of Hawaii |
| OW17-037   | Successful Cacao Establishment through Improved Soil Management              | $49,789      | Dave Elliott  
Oahu RC&D |
| OW16-022   | Cover Crop Cocktails: Evaluating Costs and Benefits of Mixed-Species Plantings | $41,606      | Dave Elliott  
Oahu RC&D |
| OW15-019   | Sustainable Pest Management Approaches for High Tunnel Screenhouse Production in the Tropics | $49,989      | Dr. Koon-Hui Wang  
University of Hawaii |
| OW13-034   | Enhancing the sustainability of grass-fed beef production in Hawaii via carcass and meat quality improvement | $49,948      | Dr. Yong soo Kim  
University of Hawaii |
| OW12-041   | Effectiveness of Beauveria bassiana on coffee berry borer in different agroclimatic zones | $49,403      | Dr. Elsie Burbano Greco  
University of Hawaii at Manoa |
| OW11-308   | Control of coffee berry borer and increase of coffee yields using Surround WP (kaolin) | $47,648      | Dr. Shawn Steiman  
Coffee Consulting |
| OW11-309   | Training Livestock to Eat Weeds in the Tropical Pacific and Evaluating the Effects on Meat Quality for Stronger Ranch Profits | $49,610      | Matthew Stevenson  
University of Hawaii |
| OW11-310   | Master Farmer Workshop Series                                                | $49,812      | Dave Elliott  
Oahu RC&D |
Total funding from the USDA SARE program to Hawaii
$7,966,301

For further information on projects, contact Western SARE at (406) 994-4789 or wsare@montana.edu.
Sustainable Agriculture Research and Education (SARE) is funded by USDA’s National Institute of Food and Agriculture (NIFA).
